

ATFSV / CMFSB — CONTROLLED DOCUMENT TREE

Fifty Essential Documents for Path A License / Sale Diligence
ATFSV-DOC-TREE | Companion to ATFSV-DOC-00-R5.0 | 2026-10-02 | Confidential
Founder / Legal Owner: Amirbahador Atai

This tree lists **fifty practical, high-value documents** for presenting the CMFSB isolation-module IP to a serious buyer. It is not a claim that all fifty must exist on day one. Use tiers: start with T0/T1; open T2 under NDA + need-to-know; keep T3 counsel-controlled. More than this set, without configuration control, often hurts diligence rather than helping it.

How to use the table

Left columns: sequential ID (1–50) and document name (what the buyer sees in the data room). Right columns: document type (classification for DMS / quality system) and disclosure tier. Group headers mark functional packages A–H.

#	Document name (buyer-facing title)	#	Document type	Tier
1	ATFSV-DOC-00 Master Engineering Baseline (R5.0)	1	Master Baseline / Architecture Spec	T1
2	ATFSV-DOC-00-CL Change Log & Revision History	2	Configuration / Change Record	T1
3	ATFSV-DOC-TREE Document Tree & Data-Room Index (this file)	3	Index / DMS Map	T1
4	ATFSV-VOC Status Vocabulary & Naming Governance	4	Governance Spec	T1
5	ATFSV-DIST Distribution & Disclosure Tier Register (T0–T3)	5	Security / Disclosure Control	T1
6	ATFSV-T0 Teaser (2-page, non-enabling)	6	Marketing / Teaser	T0
7	ATFSV-T1 NDA Package Cover + Reading Guide	7	NDA Front Matter	T1
8	ATFSV-COM-01 Path A Term Sheet Framework (no public prices in Doc 00)	8	Commercial Framework	T2
9	ATFSV-COM-02 Field-of-Use & Exclusivity Options Matrix	9	Commercial Options Matrix	T2
10	ATFSV-COM-03 Milestone & Evidence-Linked Payment Skeleton	10	Commercial Milestone Plan	T2
11	ATFSV-MOD-001 Module Datasheet	11	Product Datasheet	T1
12	ATFSV-ICD-001 Interface Control Document (Mech/Hyd/Elec/Comm/Safety/Lock)	12	ICD / Interface Spec	T1–T2
13	ATFSV-REQ-001 Module Requirements Specification (REQ-M01...)	13	Requirements Spec	T1
14	ATFSV-ARCH-001 System Architecture Description (macro–micro, dual-mode)	14	Architecture Description	T1
15	ATFSV-SM-001 Safety State Machine S0–S8 Specification	15	State Machine Spec	T1
16	ATFSV-LCK-001 Lock / SPORT Mode Design Description	16	Subsystem Design Description	T2
17	ATFSV-HYD-001 Hydraulic Support & Leveling Design Note	17	Subsystem Design Note	T2
18	ATFSV-ACT-001 Lorentz Actuator Screening & Limits Note	18	Actuator Design Note	T2
D. SAFETY, RISK & COMPLIANCE PLANNING (19–25)				
19	ATFSV-FMEA-001 Module Design FMEA (with RPN)	19	FMEA Report	T1–T2
20	ATFSV-HARA-001 Preliminary HARA / Hazard Analysis	20	Safety Analysis	T2
21	ATFSV-S4-001 Power-Loss & Limp-Home Policy	21	Safety Policy Spec	T1
22	ATFSV-STR-001 Progressive Stop Energy & Stroke Analysis	22	Structural / Energy Analysis	T2
23	ATFSV-EMC-001 Cabin Magnetic Field & EMC Plan	23	EMC / Field Plan	T2
24	ATFSV-REG-001 Regulatory Applicability Matrix (candidate standards)	24	Regulatory Matrix	T2
25	ATFSV-SAFE-001 Safety Case Skeleton (claims–argument–evidence map)	25	Safety Case Outline	T2
E. EVIDENCE, SIMULATION & TEST (26–33)				

#	Document name (buyer-facing title)	#	Document type	Tier
26	ATFSV-SIM-001 Multi-Band Isolation Simulation Plan & Results	26	Simulation Report	T1–T2
27	ATFSV-SIM-002 COMFORT Handling / Roll Sensitivity Study	27	Dynamics Simulation Note	T2
28	ATFSV-TP-L2 Single-Tower Bench Test Plan (force, power-loss, lock)	28	Test Plan	T2
29	ATFSV-TR-L2 Single-Tower Bench Test Report (when available)	29	Test Report	T2
30	ATFSV-TP-L3 Four-Corner & HIL Test Plan	30	Test Plan	T2
31	ATFSV-TR-L3 Four-Corner & HIL Test Report (when available)	31	Test Report	T2
32	ATFSV-EVID-001 Evidence Ladder Register (L0–L4 status board)	32	Evidence Register	T1
33	ATFSV-MET-001 Measurement Uncertainty & Instrumentation Note	33	Metrology Note	T2
34	ATFSV-MASS-001 Mass Book Method & Corner Allocations	34	Mass Analysis	T2
35	ATFSV-ENE-001 Mission Energy & Module Power Budget	35	Energy / Power Analysis	T2
36	ATFSV-BRK-001 Brake Thermal Screening (Path B context only)	36	Brake Analysis (Reference)	T2
37	ATFSV-INT-001 Vehicle Integration Guidelines (Path A → buyer vehicle)	37	Integration Guide	T2
38	ATFSV-DOC-01 Path B Structural Summary Pointer (detail lives here if needed)	38	Vehicle Architecture (Optional)	T2
39	ATFSV-IP-001 IP Status Summary (provisional / search / non-claims)	39	IP Status Memo	T3
40	ATFSV-IP-002 Prior-Art Landscape Note (cabin lock / predictive modes)	40	Prior-Art Note	T3
41	ATFSV-IP-003 Inventor Assignment & Chain-of-Title Log	41	Title / Assignment Record	T3
42	ATFSV-NDA-001 Mutual NDA Template (jurisdiction-specific legal review)	42	Legal Template	T0–T1
43	ATFSV-EXP-001 Export-Control & Sanctions Screening Checklist	43	Compliance Checklist	T2
44	ATFSV-PLAN-001 Path A Programme Plan (Ph0–Ph3, gates G0–G5)	44	Programme Plan	T1
45	ATFSV-RISK-001 Technical & Commercial Risk Register	45	Risk Register	T1
46	ATFSV-WP-001 Immediate Work Package & Priority Board	46	Work Package List	T1
47	ATFSV-SUP-001 Supplier RFQ Package Checklist	47	Procurement Checklist	T2
48	ATFSV-QMS-001 Quality & Configuration Management Preview	48	QMS / CM Outline	T2
49	ATFSV-DRM-001 Data-Room Folder Map & Access Matrix	49	Data-Room Control	T1
50	ATFSV-FAQ-001 Buyer Technical FAQ (controlled answers)	50	FAQ / Diligence Aid	T1

Minimum set to open a serious Path A conversation

Not all fifty are required at first contact. A practical opening set is: **#6 T0 Teaser** → NDA → **#1 Doc 00 + #11 Datasheet + #12 ICD draft + #26 SIM plan/results + #32 Evidence register + #39 IP status (counsel) + #8 Commercial framework (T2)**. Add test reports (#29, #31) as they become real. Optional Path B detail (#38) only if the buyer asks for vehicle partnership.

Tier legend

Tier	Meaning	When to open
T0	Public / first contact; no enabling detail	Before NDA
T1	Full Doc 00 class content under NDA	After executed NDA
T2	Models, ICD detail, commercial terms, test data	Need-to-know + NDA
T3	Claim charts, deep IP, assignment internals	Counsel-controlled only

This document tree is a planning and data-room control aid. Existence of a row does not mean the file is complete or verified. Status of each item should be tracked in ATFSV-EVID-001 and ATFSV-DOC-00-CL.
